

DISCOVERY CALL

This is our chance to get to know each candidate and determine if our program is a good fit for them. The Program Coordinator will use an informal conversation format using a zoom call, or phone call, and review what our program has to offer. The Tech Lead will also join the call if the candidate has expressed interest in our Coding Academy. Prior to this Discovery Call, information has been exchanged to prequalify the candidate, and at the conclusion of this call, a decision will be made as to whether or not to invite the candidate to participate in our program.

Discussion

1. Review your application: Which part of our program would serve you best? Discuss strengths and weaknesses.
2. Review your resume: Does your area of expertise and experience work well with online work?
3. Question for you: Why do you want to pursue remote working?
4. Questions for me!

If the program is not a good fit:

- Recommendations for further tech training using Grow with Google or other resource
- Recommendations for job search online to narrow down their focus
- Invite to reconnect in the future if their qualifications change

Connect With Us

www.ruralandremote.org

If the program is a good fit:

- Candidate completes the Primary Application
- Training track is determined
- Invited to enroll in training
- Moves forward to orientation and training
